

IEE-859 TEORIA DO VALOR E PREÇOS (Distribuição e Preços Relativos na Abordagem do Excedente)

Prof: Franklin Serrano

O objetivo do curso é apresentar um panorama do projeto de pesquisa proposto a partir da retomada da abordagem clássica do excedente proposta por Sraffa e Garegnani no que diz respeito as relações entre distribuição e preços relativos. Este programa tem tanto um aspecto analítico de teoria pura e aplicada, quanto um aspecto de releitura da história do pensamento econômico.
