

IEE875 – POLÍTICA MACRO COMPARADA

1º SEMESTRE 2018

Docente: Eduardo F. Bastian

Objetivo:

O curso tem por objetivo discutir temas selecionados em teoria econômica pós-keynesiana, entendendo teoria pós-keynesiana a partir da definição de Lavoie (2014) em que são incluídas diversas correntes (Fundamentalistas, Kaleckianos, Sraffianos, Kaldorianos e Institucionalistas). A discussão dos temas consistirá em uma apresentação tanto da teoria, quanto de aplicações a casos concretos. Procura-se, com isso, fornecer ao aluno um quadro atualizado – teórico e da pesquisa aplicada - em temas relevantes no âmbito da teoria pós-keynesiana. O curso funcionará sob a forma de seminários e contará com a participação de outros professores do PPGE.

Programa:

- A Macroeconomia pós-keynesiana: características gerais

- Inflação, Regimes Inflacionários, Crescimento e Desemprego

- (1) Inflação e Desemprego: o debate teórico em torno da NAIRU e suas mudanças nas últimas décadas.
- (2) Inflação de custos em uma economia aberta e fechada
- (3) Inflação rastejante (*creeping inflation*)
- (4) *Strato-inflation*, Alta Inflação e Hiperinflação
- (5) Regimes inflacionários e crescimento econômico

- Política Econômica e avaliações

- (6) Visões pós-keynesianas sobre o Novo Consenso, o regime de metas de inflação e regras de política monetária.
- (7) União Monetária e a crise do Euro
- (8) Multiplicadores Fiscais

- Demanda agregada e Crescimento

- (9) A contabilidade do crescimento pelo lado da demanda
