

Objetivo: O objetivo da disciplina é examinar experiências concretas de estados de bem-estar contemporâneos. A partir de um pré-definido marco analítico, os “regimes de bem-estar”, os estados de bem-estar são estudados em sua variedade e nas respostas às crises financeira, ambiental e sanitária. Especial ênfase será dada ao modelo social-democrata nórdico, que tem despertado crescente interesse em virtude dos bons resultados, e aos novos desafios representados pelo avanço do welfare-chauvinismo e o populismo.
